Author's notes:
I took some liberties with Milah's character, but we already had 2 magic women, so I wanted her to be a toughy. I also wanted someone to have a nautical theme.

Same with the story. The guy's character drawings were good, but there wasn't much for me to make around, also Alfie make a micky-taking character, so I ran the story round his wierd character.

As for Lily Mai, she didn't have any drawings from our final session, but I liked her picture and thought I could work it in here!
