Author's Notes:
So the story is based on the images of the scary hospital and the great creepy doctor made by the girls. The boys didn't really give me much to work with, so I thought it would be fun to throw their characters into the girl's hospital story.

The story sketches didn't include characters, so I used the drawings from the second session. Kriste, Kobe and Logan's pictures were easy to work with, and Ollie's was an odd one, but when I looked at it I couldn't help seeing a moustacheo'd super hero... so that's what I did.

The rest of the character's were just random, hoping to create something relatable for the other kids.

Originally the doctor was just an alien, but I decided to stick with the D&D theme and made him into a kind of "mind-flayer", as seen in Baldur's Gate 3.
